Request for Proposals (RFP)
Therapy Management in Renal Cell Carcinoma (RCC)

I. Background

Pfizer Global Medical Grants (GMG), Merck KGaA, Darmstadt, Germany - Global Medical Education (GME), and EMD Serono, Inc. US Medical Education are collaborating to provide grant support for continuing professional education in the area of Immuno-Oncology. Immuno-Oncology is a top priority for Merck KGaA, Darmstadt, Germany, EMD Serono, Inc. and Pfizer Inc., and for the Global Strategic Alliance among our organizations.

This publicly posted Request for Proposal (RFP) provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Alliance review process to make final grant decisions.

Organizations are invited to submit an application addressing the knowledge gaps as outlined in the RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Our companies must not be involved in any aspect of project development, nor the conduct of the independent education program.

II. Eligibility

**Geographic Scope:**

<table>
<thead>
<tr>
<th>Region</th>
<th>Countries</th>
</tr>
</thead>
<tbody>
<tr>
<td>North America</td>
<td>Canada, United States</td>
</tr>
<tr>
<td>Europe</td>
<td>France, Germany, Italy, Spain, Switzerland, United Kingdom</td>
</tr>
<tr>
<td>Asia Pacific</td>
<td>Japan</td>
</tr>
<tr>
<td>Latin America</td>
<td>Brazil, Argentina</td>
</tr>
</tbody>
</table>

**Applicant Eligibility Criteria:**

The following may apply: medical, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.

If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. all institutions must have a relevant role and the requesting organization must have a key role in the project.

For projects offering continuing education credit, the requesting organization must be accredited.
### III. Requirements

<table>
<thead>
<tr>
<th>Date RFP Issued:</th>
<th>March 9, 2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clinical Area:</td>
<td>Therapy Management in RCC</td>
</tr>
</tbody>
</table>
| Specific Area of Interest for this RFP: | Projects that will be considered for support will focus on projects that improve the care of RCC patients receiving I-O TKI combination therapy to include:  
  - Treatment optimization  
  - Adverse event and side effect management  
  - Patient support (including psychological support)  

Proposals do not have to be limited to only the patient type of interest in this RFP. Broader solutions that provide support for patients with other cancer types beyond RCC and for patients receiving therapies other than IO-TKi combinations will also be considered.  

All educational formats can be included in this RFP but there is a particular interest in technology-enabled solutions such as interprofessional communication solutions, apps and other digital tools.  

Projects may be patient-centric solutions such as patient apps or health-care provider solutions such as communication tools or clinical management solutions. One example of a successful project in this category was recently published in the Journal of the National Comprehensive Cancer Network “A Multidisciplinary Toxicity Team for Cancer Immunotherapy–Related Adverse Events” (ref. J Natl Compr Canc Netw 2019;17(6):712–720). [Click here](#) to see an article about the project.  

The intent of this RFP is not to fund research grants. The scope is limited to education and/or health care quality improvement.  

**Expected Approximate Monetary Range of Grant Applications:** The total available budget related to this RFP is approximately **$450,000 USD.**  

The grant maximum under this RFP will be **$200,000 USD.**  

Smaller grant requests are also encouraged. Organizations that would like to develop solutions for a more limited regional or local group of healthcare providers or patients should also apply. Typical grant amounts for local or regional activities should not exceed around **$50,000 USD.**  

The grant amount the Global Strategic Alliance will be prepared to fund will depend upon the evaluation of the proposal and costs involved and will be stated clearly in the approval notification.
Key Dates:

RFP release date: March 9, 2020

Grant application due date: April 30, 2020
Please note the deadline is midnight Eastern Time (New York, GMT -5).

Anticipated Grant Award Notification Date: May 22, 2020

Grants distributed following execution of fully signed Letter of Agreement
Period of Performance: June 2020 to June 2022 (projects may be shorter; 24-month project maximum)

How to Submit:

Please go to www.cybergrants.com/pfizer/knowledge and sign in. First-time users should click “Create your password”.

In the application:

• For the question “What type of request are you submitting?” select Response to a Request for Proposal (RFP)
• For the question “Are you replying to a Request for Proposal as part of the Competitive Grant Program?” select Yes
• Select the following Competitive Grant Program Name: 2020 Oncology-G Therapy Management in RCC
• Select the following Primary Area of Interest: Oncology - Immuno-Oncology

Requirements for submission:
Complete all required sections of the online application and upload your project proposal (see Appendix) in the General RFP Submission field.

If you encounter any technical difficulties with the website, please click the “Technical Questions” link at the bottom of the page.

IMPORTANT: Be advised applications submitted after the due date will not be reviewed by the committee.

Questions:

If you have questions regarding this RFP, please direct them in writing to Jacqueline Waldrop at Jacqueline.Waldrop@pfizer.com, with the subject line “Therapy Management in RCC.”

Mechanism by which Applicants will be Notified:

All applicants will be notified via email by the dates noted above. Applicants may be asked for additional clarification during the review period.

IV. Terms and Conditions

Please take note every RFP released by Pfizer Global Medical Grants (GMG), including those released on behalf of the Global Strategic Alliance with Merck KGaA, Darmstadt, Germany, is governed by specific terms and conditions. These terms and conditions can be reviewed here.
Appendix - General RFP Submission Requirements

Project proposals should be single-spaced using Calibri 12-point font and 1-inch margins. Note there is a 15-page limit exclusive of references. Please include the following:

| Goals and Objectives | Briefly state the overall goal of the project.  
<p>| | List the objectives you plan to meet with your project, in terms of learning and expected outcomes. |
| Needs Assessment for the Project | Include a description of your organization’s needs assessment for this proposed project which may include a quantitative baseline data summary, initial metrics, or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area. |
| Target Audience | Describe the primary audience(s) targeted for this project. Indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population. |
| Project Design and Methods | Describe the planned project, the educational approach, and the way the planned methods address the established need. |
| Innovation | Explain what measures you have taken to assure that this project is original and does not duplicate other projects or materials already developed. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions. |
| Evaluation and Outcomes | In terms of the metrics used for the needs assessment, describe how your organization will determine if the gap was addressed for the target group. Identify the sources of data your organization anticipates using to make the determination. Describe how your organization is expected to collect and analyze the data. Explain the method used to control for other factors outside this project (e.g., use of a control group or comparison with baseline data). Quantify the amount of change expected from this project in terms the target audience. Describe how your organization will determine if the target audience was fully engaged in the project. |
| Dissemination Plan | Describe how the project may have extended benefit beyond the grant. Will the teaching materials be made available to others to use? Will there be tools or resources that are made publicly available beyond the initial project. Describe how the project outcomes might be broadly disseminated. |
| Anticipated Project Timeline | Provide an anticipated timeline for your project including project start/end dates. |</p>
